SATURDAY MORNING, MAY 12, 2018; 10 AM - NOON

Turn trash into a tiara treasure with our paper hat class. Making paper hats from recycled materials will be fun, open up a child's imagination and give the child and accompanying adult an opportunity to create something special together. Children are asked to bring with them any recycled paper material they find interesting to make a springtime crown: packing material, cereal boxes, wrapping paper, stamps, tinfoil, greeting cards, packaging, fruit, candy, gum wrappers, cupcake liners, ribbon, sticky notes, envelopes, shopping catalogues, school papers and anything they can find that can be folded, curled and hot glued. Please note: we will be using hot glue guns and the accompanying adult for this class will be asked to do the gluing.

TAUGHT BY: ALYN CARLSON, A NEW ENGLAND-BASED PAINTER, author, graphic designer, performer and paper artist. Her book, *The Paper Hat Book*, a how-to book for adults and children, features her designs made from recycled materials and ephemera.
